NOTES:

As many of you know, my Dad, Bill Humphrey, passed away on October 15, 2009. For the customers and friends that came in person to his memorial service, or sent a note, letter, email, or thought our way, we thank you from the bottom of our hearts. This last year has been one of the toughest. Due to the nature of the business, Dad's legacy will live on for quite a while. All the trees in the nursery were started by my Dad or "plugged-out" at his direction with the exception of the Western Red Cedar which I had plugged from his seed supply due to customer demand last spring. It was a good growing year, with the ample rains meeting almost all irrigation needs. The only regret was my own oversight of the necessity of additional fertilizer in some of the Douglas fir beds. This resulted in some poor color towards fall. As we work our way through the next few years, we hope to be able to continue the quality and personal service that was Dad's hallmark. Thank you in advance for your patience and loyalty.

Most Sincerely, Jerrienne

* All of my Father's nursery maps indicate this seed source; however, after digging last spring and observing growth over the summer, I have great doubt as to the accuracy of this – many tend to look more like Grand Fir. If you are willing to risk some uncertainty, these are very nice trees.
